That ALWAYS treats you RIGHT.

Friday in 1913

Friday will come in for its own in 1913. Lucky or unlucky, more feasts and holidays will take place than on any other day in the week. Five out of the ordinary events come on Friday.

Wednesday is second in the list with three feasts. The first holiday of the year, New Year day, comes on Wednesday. Counting days of small and big interest, religious feasts days and national holidays the distribution between the days of the week will be: Sunday, two; Monday, two; Wednesday, three; Thursday, two; Friday, six; Saturday, one.

Easter, March 23, and Discovery, October 12, fall on Sunday. St. Patrick's day and Labor day, September 1, come on Monday. Inauguration day, March 4 and April Fool's day, April 1, will be celebrated on Tuesday. New Year's day, Ash Wednesday, February 5, and Lincoln's birthday, February 12, complete the Wednesday list. St. Valentine's day, February 14; Good Friday, March 21; Decoration Day, May 30; Independence day, July 4, and Halloween, October 31, are on Friday. Saturday will be saved from absence of celebration by Washington's birthday February 22.

There will be three eclipses of the sun during the year, all invisible in North America, however. But two total eclipses of the moon will be visible in North America. The first one may be seen in this place at 5 o'clock on the morning of March 22, and the second eclipse of the moon will be visible at 3:20 o'clock on the morning of September 15.
